If dust recirculates back in to the room anyway, then what good is "never losing suction"?

BEAM Built in Vacuum systems remove 100% of contacted dirt, dust, pollen, and allergens completely from the home, never recirculating dusty air back in to the room you've just cleaned.

## Nothing to sneeze at.

Many allergists recommend central vacuum systems for their patients as the best solution for removing indoor air pollution from the home.

Percent improvement of common allergy symptoms
